

Clock Is Ticking! Scholarship Applications Are Due This Wednesday, May 15

We are encouraged by the number of students who have started the application process for a scholarship through the Frankenmuth Insurance Scholarship Foundation, but frankly, a vast majority of applications are still sitting in draft status (not completed).

If you have a child who started the process, please check in to remind him/her that applications and transcripts are due this **Wednesday, May 15, 2024, by 11:59 p.m. Eastern Time**. If you have a child who meets the criteria and hasn't applied yet, there's still time! To initiate the application process for your student, log in to iBIS Agency Services and navigate to Resources > Scholarship.

This opportunity is for **college juniors and seniors** whose parent or legal guardian works for an agency that represents Frankenmuth Insurance or its subsidiaries, including Patriot Insurance Company. Eligible students must be seeking a degree in insurance and risk management or a related business field, such as accounting, actuarial science, business administration, business management, finance, marketing, information technology, or another field supporting the insurance industry. For more details about applicant requirements and criteria for the scholarship, please [click here](#).

If you have any questions, please contact the Frankenmuth Insurance Scholarship Committee at scholarship@fmins.com.
