

EFT & Credit Card Edit Adjustment in iBIS!

To improve the overall efficiency of the iBIS issuance process for Personal Lines, we will be making the following adjustment on 9/24/2014.

Currently, EFT and Credit Card information are collected on the Billing Screen and are required when you select Prepare for Submission. With this adjustment, EFT and Credit Card information will not be required until just before you navigate to the Down Payment Screen.

By moving this requirement to the end of the issuance process, we anticipate quicker response time and, most importantly, an even easier process for you.

If you have any questions related to this enhancement, please don't hesitate to contact eBusiness Support at 1-800-234-1133 extension 3000 or send us an email at agencyervices@fmins.com.
