Frankenmuth Insurance Named one of Ward's 50® Top Performers for the Year

I am pleased to announce Frankenmuth Insurance, which includes its subsidiary Patriot Insurance, was named to Ward's 50® list for 2017 as one of the nation's top performing insurance companies. This coveted placement is based on outstanding, consistent financial performance over the five-year period from 2012 to 2016, benchmarked against nearly 3,000 property-casualty insurance companies in the industry.

I am gratified that Ward Group recognizes our company among the most financially stable and consistent companies, but this impressive achievement is attributable to the dedication of our professional independent agency partners and our outstanding employees.

Ward Group, a part of Aon Hewitt, is the leader of benchmarking and best practice services for the insurance industry and has been conducting this analysis of insurance firms in the United States for the past 27 years. This is the 15th year Frankenmuth Insurance has been named a top performer on the Ward's 50 list.

I truly appreciate the important role our professional agency partners play in our company's success. Thank you for being a part of this prestigious recognition.
