Improve Information Security by Keeping Your Systems Current

At Patriot Insurance Company, we work hard to ensure sensitive data in iBIS Agency Services and Policyholder Services is safe and secure. As part of that effort, we will no longer be supporting less secure connection methods, such as Windows XP, effective April 1, 2023.

We recommend using Windows 10 or higher for your operating system and highly encourage you to keep your internet browser up to date on the most recent version. Google Chrome and Microsoft Edge are most compatible with our systems, and both offer security protection against vulnerabilities.

Keeping both your agency's operating system and browser updated ensures enhanced security and compatibility. Thank you for your continued partnership as we work to keep our shared information and systems safe and secure.

If you have any questions, please contact Automation Support at 800-234-1133, ext. 3000, or agencyservices@fmins.com.
