

Patriot Insurance Announces Intention to Offer Premium Relief to Personal Auto Policyholders

As a result of the shelter-in-place orders related to COVID-19, we expect a decrease in drivers on the road, fewer miles driven, less accidents, and lower loss costs. We are evaluating this impact and, in the coming days, expect to announce a premium relief plan to pass these savings on to our mutual customers.

In the meantime, should you receive inquiries from your Patriot Insurance personal auto customers, please inform them we are developing this plan and it will be communicated once finalized.

Should you have any questions, please do not hesitate to contact your field manager or underwriter.
